

POLYCARBONATE Monolithic Sheet

TECH BRIEF: 5001

ASTM D3935- 09 Standard Specification for Polycarbonate (PC) Unfilled and Reinforced Material

This specification covers unfilled and reinforced polycarbonate and polycarbonate copolymer materials suitable for injection molding, blow molding, compression molding and extrusion. The classifications noted below for various Palram polycarbonate sheet products define physical and mechanical properties of virgin resins used to produce said products.

This specification supersedes government specification L-P-393.
