Compliance with EU Regulation 1907/2006 (REACH)
The sheets manufactured by Palram are exempted from the requirement of the REACH regulation to provide customers with a Safety Data Sheet (EU No. 1907/2006, article 31) since they are defined as “articles.” The information herein is provided by Palram as courtesy to its customers and a part of its service efforts. The sheets do not contain any substances on the candidate list for inclusion in Annex XIV of REACH above the threshold level of 0.1% by weight of the article.

1. Identification of the article and the company

1.1. Identification of the article

Trade Names : PALGLAS®, PALGLAS® XT, SUNGLAS™
Product Name : Rigid Acrylic Sheet
Material Name : Acrylic Copolymer
CAS number : 9010-88-2
UN number : None
ACX number : X1008843-8
RTECS : TR0400000
Material Synonyms : Acryloid; Methyl methacrylate, polymerized; PMMA; Methyl methacrylate homopolymer; Methyl methacrylate resin; Poly (methyl methacrylate)
NFPA Ratings : Health=0, Fire=3, Reactivity=0

1.2. Company Identification & Contact

Israel - Palram PVC
Address: Ramat Yohanan, 30035, ISRAEL
Tel: +972 4 8459 900
Fax: +972 4 8444 012

UK - Palram Polycarb
Address: Unit 2, Doncaster Carr Industrial Estate, White Rose Way Doncaster DN4 5JH, UK
Tel: +44 1302 380738
Fax: +44 1302 380739

Americas - Palram 2000
Address: 9735 Commerce Circle Kutztown, PA 19530, USA
Tel: +610-285-9928
Fax: +484-647-8210

Local: Call your nearest poison control center.

2. Composition / Information of Ingredients

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>CAS Registry Number</th>
<th>Typical wt%</th>
<th>OSHA Listed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Poly (Ethyl Acrylate/Methyl Methacrylate)</td>
<td>9010-88-2</td>
<td>99.3 minimum</td>

</tr>
<tr>
<td>Methyl Methacrylate</td>
<td>80-62-6</td>
<td>&lt;0.7</td>
<td>Y</td>
</tr>
</tbody>
</table>

Pigments and additives used to enhance specific properties are encapsulated in the polymer resin matter.
No cadmium or other heavy metals based pigments or stabilizers used.
The substance marked with a “Y” in the OSHA column, are identified as hazardous chemicals according to the criteria of the OSHA Communication Standard (29 CFR 1910.1200).

3. Hazards identification

No particular hazards known.

3.1. Health Hazard Data

3.1.1 Effects of a Single Overexposure

Swallowing : non-relevant
Skin Absorption : non-relevant
Inhalation : inhalation of monomer vapor from heated product can cause: irritation of nose, dizziness – headache - nausea
Skin Contact : monomer vapors from heated product can cause: irritation
Eye Contact : monomer vapors from heated product can cause: irritation

In as much as Palram Industries has no control over the use to which others may put the material, it does not guarantee that the same results as those described herein will be obtained. Each user of the material should make his own tests to determine the material’s suitability for his own particular use. Statements concerning possible or suggested uses of the materials described herein are not to be construed as constituting a license under any Palram Industries patent covering such use or as recommendations for use of such materials in the infringement of any patent. Palram Industries or its distributors cannot be held responsible for any losses incurred through incorrect installation of the material. In accordance with our company policy of continual product development you are advised to check with your local Palram Industries supplier to ensure that you have obtained the most up to date information.
This document covers safety data concerning the following products:

PALGLAS®
PALGLAS® XT
SUNGLAS™

3.1.2 Effects of a Repeated Overexposure - See Health Hazards
3.1.3 Medical Conditions Aggravated By Overexposure - None currently known
3.1.4 OTHER EFFECTS OF OVEREXPOSURE - None currently known

4. First Aid Measures
In general handling the material will not cause accidents.

4.1. Inhalation
Route of entry – inhalation: No
If exposed to monomer vapors or combustion fumes in high concentration - bring victim to fresh air. Medical attention needed.

4.2. Ingestion
Route of entry – ingestion: No

4.3. Skin Contact
Burns resulting from accidental contact with molten material must be flushed immediately with cold water.
Do not remove the polymer from the skin. Do not use solvent for removal. Medical attention needed.

4.4. Skin Absorption
Route of entry – skin: No

4.5. Eye Contact
Like any foreign body, can cause mechanical irritation. Remove contact lenses at once.
Immediately flush eyes well with copious quantities of water or normal saline for at least 20-30 minutes. If irritation persists, consult physician.

4.6. Notes for Physician
There are no specific notes.

5. Fire Fighting Measures
This material burns with difficulty and generally requires a continuous external flame source to sustain combustion. Without flashover fire conditions it will tend to extinguish it. When forced to burn it will produce a sooty fire.
Main products of combustion are carbon dioxide and carbon monoxide. Some flame-retardant grades will evolve trace quantities of hydrogen bromide on combustion.
Combustion products have been found in independent tests to be essentially non-corrosive.

5.1. Extinguishing Media
Water spray or foam. CO₂ is less recommended due to lack of cooling capacity.

5.2. Extinguishing Media to Avoid
No information currently available.

5.3. Special Fire Fighting Procedures
Personnel without suitable respiratory apparatus should leave the affected area to prevent exposure to toxic or combustible gases.

5.4. Special Protective Equipment for Firefighters
Positive-pressure self-contained breathing apparatus, protective clothing, gas mask approved for acid vapors.

5.5. Unusual Fire and Explosion Hazards
Hazardous combustion products may include intense heat, dense black smoke, carbon dioxide, carbon monoxide and hydrocarbon fragments. Combustion products/processing fumes may include trace levels of phenol, alkylphenols, and diarylcarbonates.
Soot emitted when PC is forced to burn may obscure visibility.
During combustion the base resin does not produce hydrogen cyanide, phosgene, acrolein, hydrogen chloride or sulfur dioxide.
The material is not sensitive to static discharge.
Static electricity discharge sparks possible at handling – avoid vicinity of static discharge sensitive materials.
6. Accidental Release Measures

No special precautions and no personal protective equipment needed. Collect mechanically for disposal.

7. Handling and Storage

7.1. Handling

General handling precautions
Avoid mechanical contact with eyes. Use good industrial hygiene practices. Provide adequate ventilation. Secondary operations such as grinding, sanding or sawing may produce a dust explosion hazard. Use aggressive housekeeping activities to prevent dust accumulation; employ bonding, grounding, venting and explosion relief provisions in accordance with accepted engineering practices.

Ventilation
General (mechanical) room ventilation is expected to be satisfactory where this product is stored and handled.

Other precautions
No explosion hazard. In the event of fire, cool and overlap product with water. The material is not sensitive to static discharge. Static electricity discharge sparks possible during handling. Avoid contact or vicinity of flammable materials.

7.2. Storage

This material is not hazardous under normal storage conditions. However, all materials of this type release some monomer vapors or gases when stored for prolonged periods at elevated temperatures. Avoid temperature extremes during storage; ambient temperature preferred.

8. Exposure Controls / Personal Protection

8.1. EXPOSURE LIMITS

Airborne Exposure Guidelines for Ingredients - Methyl Methacrylate

<table>
<thead>
<tr>
<th>Exposure Limit</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACGIH Sensitizer designator Y</td>
<td></td>
</tr>
<tr>
<td>ACGIH STEL</td>
<td>100 ppm (410 mg/m³)</td>
</tr>
<tr>
<td>ACGIH TWA</td>
<td>50 ppm (205 mg/m³) – averaged over 8 hour work shift</td>
</tr>
<tr>
<td>OSHA TWA PEL</td>
<td>100 ppm (410 mg/m³) – averaged over 8 hour work shift</td>
</tr>
<tr>
<td>NIOSH TWA</td>
<td>100 ppm (410 mg/m³) – averaged over 10 hour workshift</td>
</tr>
</tbody>
</table>

- Only those components with exposure limits are printed in this section.
- Skin contact limits designated with a “Y” above have skin contact effect. Air sampling alone is insufficient to accurately quantify exposure. Measures to prevent significant cutaneous absorption may be required.
- ACGIH Sensitizer designator with a value of “Y” above means that exposure to this material may cause allergic reactions.

8.2. Personal Protection

Respiratory protection: Not required under normal processing conditions. When airborne exposure limits are exceeded (see above), use NIOSH approved respiratory protection equipment. Consult respiratory manufacturer to determine appropriate type equipment for given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where exposure limit may be significantly exceeded, use an approved full-face positive-pressure, self-contained breathing apparatus.

Hand protection / protection gloves : No special protection needed
Eye protection : No special protection needed
Other protective equipment/measures : No special protection needed

In as much as Palram Industries has no control over the use to which others may put the material, it does not guarantee that the same results as those described herein will be obtained. Each user of the material should make his own tests to determine the material’s suitability for his own particular use. Statements concerning possible or suggested uses of the materials described herein are not to be construed as constituting a license under any Palram Industries patent covering such use or as recommendations for use of such materials in the infringement of any patent. Palram Industries or its distributors cannot be held responsible for any losses incurred through incorrect installation of the material. In accordance with our company policy of continual product development you are advised to check with your local Palram Industries supplier to ensure that you have obtained the most up to date information.
This document covers safety data concerning the following products:

**PALGLAS®**

**PALGLAS® XT**

**SUNGLAS™**

### 9. Physical Properties

### 10. Stability and Reactivity

**10.1. Stability**

Stable.

**Conditions to avoid**

Open flame. Avoid temperature above 250°C for prolonged periods to prevent slow decomposition.

**Incompatible materials**

Avoid contact with acids, alkalies and strong oxidizing agents.

**Thermal decomposition**

During thermal decomposition caused by fire or overheating during improper processing combustible irritating vapours are formed consisting mainly of methyl methacrylate, which affect the eyes and respiratory system.

**Hazardous decomposition products**

- Carbon monoxide (CO) - is highly toxic if inhaled, present in combustion fumes of all organic materials;
- Carbon dioxide (CO2) - in sufficient concentrations can act as an asphyxiant, present in combustion fumes of all organic materials;
- Acrylic monomers - can cause irritation of skin, eyes, nose, throat, and lungs – dizziness – headache – nausea

**10.2. Reactivity**

- Hazardous polymerization: Will not occur
- Hazardous reactions: None.

### 11. Toxicological Information

Independent testing and many years of experience confirm that this material has very low toxicity. The International Agency for Research on Cancer does not list this material as a confirmed or suspected carcinogen. Industrial hygiene studies have shown that under normal and expected conditions of use of PMMA materials, exposures are well below applicable limits.
11.1. Acute Toxocological Information

Acute oral toxicity: Oral LD50 (rat) > 5g/kg, estimated.
Acute vapor exposure: product is not toxic. For processing fumes see Health Hazard Data.
Primary skin irritation: product not considered primary skin irritant.
Eye irritation: product not considered primary irritant. When similar products, in finely divided form, were placed into the eyes of rabbits, slight transient redness or discharge occurred – consistent with the expected slightly abrasive nature of product.
Sensitization: product is not expected to be a skin sensitizer.
Chronic effects: in sub-chronic testing, the base resin was considered physiologically inert.
Carcinogenicity - NTP: not tested
- IARC: not listed
- OSHA: not regulated

Explanation Carcinogenicity: Not relevant

11.2. Other Toxicological Information
No known toxicological effects with normal use. For heating see Section 10.

11.3. Additional Information
No additional toxicity information is currently available.

12. Ecological Information

12.1. Persistence and Degradability
Detailed studies have not been conducted concerning the environmental fate of the product. According to present knowledge no unfavorable ecological effects are to be expected. Not generally hazardous to water. Insoluble in water, non-toxic solid.

Mobility: No information currently available
Persistence and biodegradability: Biodegradation period - tens of years.
Bioaccumulative potential: No information currently available.

12.2. ENVIRONMENTAL RISCS
No hazard expectation to terrestrial or aquatic flora and fauna.
Ecotoxicity: LD50 (rats) > 5 gr/kg
: IC50 (bacterial inhibition) - no data available
Aquatic toxicity: LC50 (daphnia magna) - no data available
: LC50 (fathead minnow – fish) - no data available

12.3. Other Information
All available ecological data have been taken into account for the development of the hazard and precautionary information contained in this product data.

13. Disposal Considerations
The product is not considered hazardous under current EPA hazardous waste regulations.
Recycling is the preferred method of disposal.
Alternatively, the product may be disposed of in an approved landfill.
Incorporation in accordance with federal, state and local regulations – collected processing fume condensates and incinerator ash should be tested to determine waste classification.
All wastes should be evaluated in conjunction with applicable solid and hazardous waste regulations, Toxicity Characteristic Leaching Procedures (TCLP), and disposed of as appropriate.
This product does not contain any cadmium or other heavy metal pigments or stabilizers.

It is the user’s responsibility to dispose of all wastes in accordance with all national and local regulations at properly permitted or authorized facilities.

Update: December 2013
This document covers safety data concerning the following products:

- PALGLAS®
- PALGLAS® XT
- SUNGLAS™

14. Transport Information

DOT PSN Code: ZZZ
DOT Proper Shipping Name: Not regulated by this mode of transportation
IMO PSN Code: ZZZ
IMO Proper Shipping Name: Not regulated by this mode of transportation
IATA PSN Code: ZZZ
IATA Proper Shipping Name: Not regulated by this mode of transportation
AFI PSN Code: ZZZ
AFI Proper Shipping Name: Not regulated by this mode of transportation

Additional transportation data:
- Not currently regulated under Department of Transportation regulations

Labeling:
- No labeling is required in accordance with the EEC directives
Placarding:
- No placarding is required in accordance with the EEC directives

Special transport requirements: None
Packaging:
- Avoid dark-colored packaging to prevent heat distortion

The product is classified as a non-hazardous material in the meaning of transport regulations.

15. Regulatory Information

United States: All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

EEC:

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>CAS Registry Number</th>
<th>EINICS</th>
</tr>
</thead>
<tbody>

Indicator of Danger:
- This product isn't hazardous according to EEC Directives 67/548/EEC and 88/379/EEC
- With regards to dust formed as a consequence of mechanical treatments, the appropriate regulations value limits for fine dust must be observed: MEC value (fine dust) – 5mg/m3.

16. Other Information

Recommended Uses and Restrictions
- Please consult the relevant product and/or application information for this product.
