Thermoplastic Sheets for Construction, Industry, Advertising and Agriculture

December 2, 2010

Re: USDA Compliance

Palram Americas warrants that it's Ag-Tuf PVC panels comply with U.S.D.A. requirements for wall and ceiling applications in federally inspected meat or poultry establishments.

Ag-Tuf panel surfaces meet the U.S.D.A. requirements in that they are rigid, durable, non-toxic, non-corrosive, impervious to moisture; are of a light, solid color; are easily inspected and have an easily cleaned texture.

Ag-Tuf panel surfaces contain no known carcinogens, mutagens or teratogens classified as hazardous substances; no heavy metals or other toxic substances; no antimicrobials; no pesticides or substances with pesticidal characteristics.

For more information, please contact Palram at 800-999-9459.
